STINGER® HP™

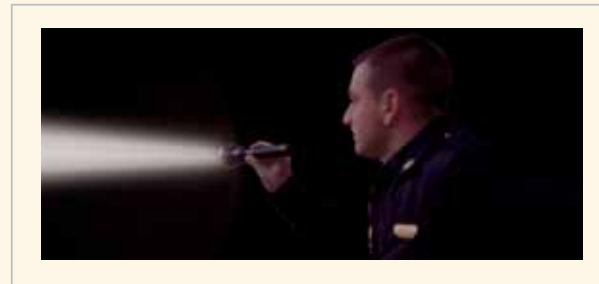

The Stinger® has long been known as the most powerful rechargeable flashlight there is for its size. Now, it's more powerful than ever. Introducing Stinger® HP™

The HP stands for High Performance, and Stinger HP delivers it with a powerful 40,000-candlepower light — almost three times the candlepower of the original Stinger. Continuous run time of one hour.

Up to 40,000 candlepower.

- Weighs just 12.2 ounces and only 8.25 inches long.
- Machined aluminum case.
- One-hour runtime.

NEW

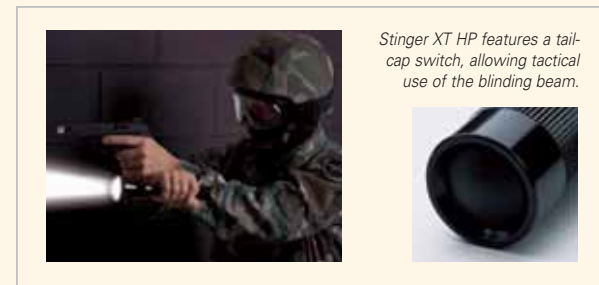

STINGER® XT HP™

The original Stinger® XT™ delivered all the benefits of the Stinger plus the tailcap switch for tactical use. The new HP, or High Performance version of the Stinger XT, does the same job but with almost three times the candlepower for an even more blinding beam — up to 40,000. Continuous run time of one hour.

Up to 40,000 candlepower.

- Weighs just 14.6 ounces, less than 9 inches long.
- Tactical tailcap switch allows momentary or constant operation.
- Machined aluminum case.
- One-hour run time.

DUAL LED CUFFMATE™

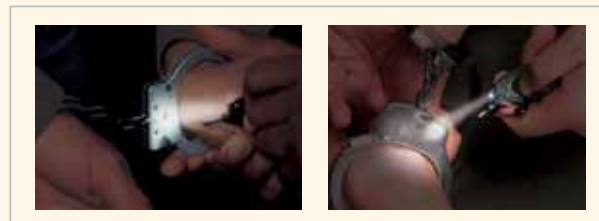

Combine the practicality of an extended-reach handcuff key with super-bright LED technology and you get Streamlight's CuffMate™. It's improved this year thanks to the addition of a second LED that allows you multi-directional lighting for unlocking and double locking of handcuffs. Powered by two long-lasting lithium batteries, CuffMate delivers more than 12 hours of run time.

Exclusive dual LED for double locking and unlocking of handcuffs.

- Compatible with most handcuffs.
- Virtually indestructible polymer body and steel alloy key.
- Swiveling keyring connector.

NEW STINGER® PIGGYBACK™ CHARGER

Double your battery power! Now you can charge your Stinger flashlight while simultaneously charging its spare battery. The Stinger PiggyBack Charger works with Stinger, Stinger HP, Stinger XT, Stinger XT HP, as well as PolyStinger. Available in steady charge or fast charge.

NEW ULTRASTINGER® FAST CHARGER

No time to waste? The Fast Charger lets you charge your UltraStinger in just 2.5 hours, one quarter of the time required for standard charging. *The existing Stinger Fast Charger will also work with the new Stinger HP and Stinger XT HP.*

OPTIONAL STINGER ULTRAHEAD UPGRADE KIT

Convert your Stinger and Stinger XT flashlights into HP — *High Performance* Stingers. Increases their candlepower from 15,000 to 40,000.

PRODUCT DATA
